

DiamondHeadRoad® h o m e & b o d y

All of our Kohala Coast sets include:
Washable silk wrap, coordinating clutch and fan,
custom coconut buckle.

Tying your wrap around the hips or right above the bust is one of the easiest ways to look put together in an instant (this look is great with or without the coconut buckle):

1. Hold wrap horizontally from behind hips or bust.
2. Grasp each top corner and hold out evenly in front of you.
3. Switch to one hand and with the other hand thread each corner through a hole in the buckle.
4. Pull the corners through and cinch the wrap snugly to your body either on the side around your hips or in front above the bust.
5. Tie once or twice into a knot or bow.

Tying your wrap as a halter top is a chic way to dress up anywhere around the globe and fits perfectly in your carry on bag. Pair it with full length or cropped white pants for summer or dark denim and black capri pants for a more sophisticated look.

1. Hold wrap horizontally from behind bust.
2. Hold out evenly in front of you and start to twist both sides until desired length is achieved.
3. Tie around the back of your neck in a double knot.

Silk is nature's perfect fiber and is a welcome alternative to wool in cooler climates.

1. Fold wrap lengthwise into a long skinny piece
2. Fold that in half and hold each end in each hand
3. Wrap around your neck from behind and slip loose ends through loop
